

SENIOR FRONTEND DEVELOPER m/f WEB/REACT

APPLY NOW

while(!
(succeed = try()));

MyTherapy is the leading digital adherence program, with thousands of active users across the globe. We are helping a wide range of patients by reminding them to take their medication and to amend a healthy lifestyle.

We are looking to fill the following position at our Warsaw office:
Senior Frontend Developer (Web // React) (f/m)

Our experienced development team creates all app components in-house – from database management and UI/UX design to the mobile frontends. We are agile and strongly believe in the Scrum approach, where flexibility and team interactions beat strict processes and supervision.

Why us?

- We work within a team of senior developers
- We shape the product together with internal product owner and graphic designers
- We prioritize quality over speed and do thorough code reviews
- We have autonomy in solving problems, choosing tools, implementing workflows, etc.

Your Profile:

- Expertise in JavaScript, HTML5 and CSS3 (e.g. SASS)
- Understanding of ReactJS, Redux and RESTful APIs
- Some experience in NodeJS (e.g. Express)
- Experience with version control systems (e.g. Git) and testing tools (e.g. Jest)
- Interest in our tech stack of Bootstrap v4, ESLint, Webpack 2 and Babel

If your skills set matches our points above and you have 3+ years experience in commercial software development/developing web applications, then send us your CV! Where possible including your Stack Overflow, GitHub profile or similar projects, we encourage you to forward them along with other points of reference.

Want to find out more about what we do, why we love doing it, and how you could contribute? Check out our webpage www.mytherapyapp.com or download our app in the [Google Play Store](#) or [Apple App Store](#). If you're interested just contact us at jobs@smartpatient.eu – Come and join our team!
