

Engineering Graduate Program

Overview

Are you looking to join a growing and exciting company that places considerable emphasis on sustainability? Are you interested in working within a FMCG company, providing you with the experience of working in a challenging and fast-paced environment, where you create value for people and nature? SCA's GO! Program provides a real job with a real development plan to give you a base to drive your development and career in SCA.

SCA is currently searching for recent graduates in Engineering to start in 2017. Selected candidates will participate in SCA's two-year Graduate On-boarding Program within the organization.

We are currently offering **Graduate Engineer** positions in a manufacturing environment that will prepare you for a sustainable career in SCA's product supply organization. Based out of one of our Production sites, you will gain deep understanding of the SCA global organization, technical knowledge, processes and tools, whilst simultaneously delivering concrete results to the business. Upon successful completion of the program, you will be qualified for roles within the Manufacturing area.

Responsibilities

During the 24 month SCA GO! Program you will work with professional production teams, take on your own small group activities and projects, as well as gain a full understanding of the product supply business. The first 6 months, you will have an on-boarding program to develop production skills, absorb

continuous improvement culture and gain knowledge of the product supply business. The following 18 months, you will concentrate on technical development whilst tackling different roles and driving your own improvement project.

Expand your knowledge and catapult your career by signing up for the SCA GO! Program today!

What are we looking for?

Work experience is not required, but appropriate internships are an advantage. Having obtained a Master's degree in Engineering achieved less than 3 years ago will be a prerequisite. Your level of English and the language of the country for which you are applying, needs to be fluent. Finally, availability for traveling may be required for the SCA GO! Program.

Last but not least, we are looking for enthusiastic, passionate and curious candidates who demonstrate the ability to be good team-players that can contribute to our ongoing success.

Tempted? Apply to this unique opportunity today and take part in the SCA journey. You want to make a difference every day. So do we.

SCA at a glance

Svenska Cellulosa Aktiebolaget

SCA is a leading global hygiene and forest products company. The Group develops and produces sustainable personal care, tissue and forest products. Sales are conducted in about 100 countries under many strong brands, including the leading global brands TENA and Tork, and regional brands, such as Libero, Libresse, Lotus, Nosotras, Saba, Tempo, Vinda and Zewa. As Europe's largest private forest owner, SCA places considerable emphasis on sustainable forest management. The Group has about 44,000 employees. Sales in 2015 amounted to approximately SEK 115bn (EUR 12.3bn). SCA was founded in 1929, has its headquarters in Stockholm, Sweden, and is listed on NASDAQ OMX Stockholm.
